WHERE FIRE MEETS THE OCEAN.

Black Fire draws its identity from the world's wild volcanic coastlines - where lava becomes rock, rock becomes sand, and the ocean shapes what remains.

Our products are designed around that meeting of elemental strength and purposeful performance. From a cold-water wetsuit to a pair of sunglasses, each piece belongs to one story: origin, exploration, discovery and movement.

PREMIUM WETSUITS

THERMAL PROTECTION / PERFORMANCE / MOVEMENT

Yamamoto #40 neoprene. A volcanic identity,
hidden warmth and precise surf construction.

INFERNO 5/4

Men's & Women's Premium Hooded Wetsuit

MADE FOR THE ELEMENTS.

Where volcanic coastlines meet cold, powerful oceans, every session demands more. The Black Fire INFERNO 5/4 is designed for surfers who refuse to let cold conditions define their limits. Constructed from premium Yamamoto #40 neoprene, it combines flexibility, thermal protection and a secure fit. Inside, signature Lava Orange quick-dry fleece features a geometric pattern inspired by volcanic rock, while the Obsidian Black exterior keeps the design refined and unmistakably Black Fire. From remote Atlantic breaks to the wild North Pacific, INFERNO is made for those who keep searching when temperatures fall.

The ocean doesn't stop. Neither does your search.

TECHNICAL FEATURES

01 **Neoprene**
5/4 mm Yamamoto #40

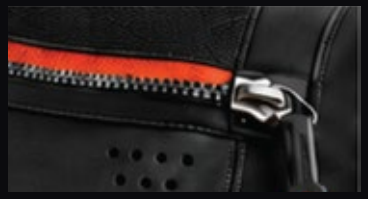

02 **Seams**
GBS with neoprene interior taping

03 **Thermal interior**
Full Lava Orange patterned fleece: torso, arms, legs and hood

04 **Panels**
Fine-mesh exterior at chest, back and hood

07 **Entry**
Integrated hood; chest zip, #10 YKK metal slider

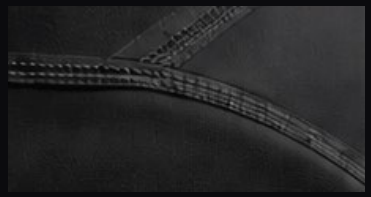

08 **Protection**
Supretex-reinforced knees; drainage holes

LINING: Full-suit coverage is the latest Black Fire design direction and must be reflected in the revised factory tech pack.

TECTONIC 4/3

Men's & Women's Premium Chest-Zip Wetsuit

FIND YOUR FREEDOM.

The most memorable waves are rarely the easiest to reach. Inspired by the shifting forces beneath the earth and the constant movement of the ocean, TECTONIC 4/3 brings together warmth, flexibility and technical precision. Premium Yamamoto #40 neoprene provides a flexible foundation, while the signature Lava Orange quick-dry thermal fleece lines the body down to the knees, concentrating warmth around the core and upper legs. The arms use flexible stretch lining to support natural paddling movement. A streamlined chest-entry system, reinforced knees and an understated Obsidian Black finish complete a wetsuit made for changing surf conditions.

Different coastlines. Changing conditions. One endless search.

TECHNICAL FEATURES

01 **Neoprene**
4/3 mm Yamamoto #40

02 **Construction**
GBS seams and interior neoprene taping

03 **Thermal interior**
Lava Orange patterned fleece in torso down to knees

04 **Sleeves**
Flexible stretch lining; no thermal fleece

07 **Entry**
Chest zip, #10 YKK plastic slider

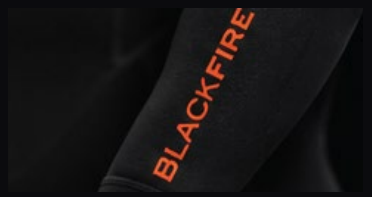

08 **Comfort**
Glider-skin neck; Supretex-reinforced knees

LINING: Fleece ends at knees and is excluded from the arms, as requested in the updated Black Fire specification

IGNITE 3/2

Men's & Women's Premium Chest-Zip Wetsuit

FEEL EVERY MOVEMENT.

Some sessions are about nothing more than you, your board and the ocean. The Black Fire IGNITE 3/2 is created for those moments, when flexibility, comfort and connection to the water take priority. Premium Yamamoto #40 neoprene combines with super-stretch exterior fabrics for natural movement through every paddle, take-off and turn. A distinctive yellow stretch-fabric interior replaces thermal fleece, keeping this streamlined suit focused on freedom of movement. Its Obsidian Black exterior, chest-entry construction and discreet Lava Orange details reflect the precision and simplicity of Black Fire.

Less restriction. More connection. Just you and the ocean.

TECHNICAL FEATURES

01 **Neoprene**
3/2 mm Yamamoto #40

02 **Seams**
GBS; neoprene interior taping at crotch only

03 **Interior**
Yellow stretch-fabric lining; no thermal fleece

04 **Comfort**
Super-stretch construction; glider-skin neck

07 **Entry**
Chest zip, #10 YKK plastic slider

8 **Protection**
Supretex-reinforced knees; drainage holes

LINING: Yellow lining is the latest design requirement; the original factory pack identifies stretch lining but does not specify its colour.

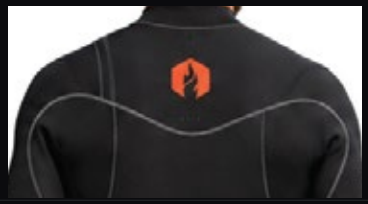

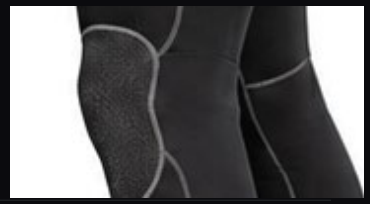

CORE WETSUITS

EVERYDAY SURF PERFORMANCE

Reliable protection, flexible construction and a clean Obsidian Black signature.

RIFT 4/3

Core Performance Wetsuit | MEN

Explore Beyond the Familiar.

Inspired by the powerful forces that shape volcanic coastlines, the Black Fire RIFT 4/3 is designed for surfers who embrace changing conditions and the search for the next wave. Constructed from 4/3 mm CR neoprene, RIFT combines thermal lining through the main body with flexible stretch fabrics in the shoulders, arms and legs. A secure chest-entry system, glued and blind-stitched seams and reinforced knee panels complete a dependable all-round surfing wetsuit. Finished in Obsidian Black with discreet white Black Fire branding, RIFT reflects the strength and simplicity of our volcanic origins.

Built for changing conditions. Made for the search.

TECHNICAL FEATURES

01	4/3 mm CR neoprene	02	Thermal lining in main body
03	Super-stretch shoulders, underarms and sleeves	04	Chest entry: #10 YKK plastic-slider zip
05	GBS seams; internal neoprene taping	06	Supretex reinforced knee panels
07	Water drainage holes	8	Obsidian Black; white Black Fire branding

RIFT 4/3

Core Performance Wetsuit | WOMEN

Strength in Every Movement.

Every wave offers a new beginning. Every coastline holds something undiscovered. The Black Fire Women's RIFT 4/3 is designed for women who find freedom in the ocean, combining reliable warmth, flexibility and a clean, athletic silhouette. Constructed from 4/3 mm CR neoprene, it features thermal lining through the main body, flexible stretch panels and a women's anatomical fit. Its chest-entry construction, sealed seams and reinforced knees provide practical protection for regular surfing. Finished in timeless Obsidian Black with subtle white Black Fire detailing.

Find your freedom. Follow the ocean.

TECHNICAL FEATURES

01	4/3 mm CR neoprene	02	Women's anatomical fit
03	Thermal lining through main body	04	Flexible shoulders, arms and lower-body panels
05	Chest zip: #10 YKK plastic slider	06	GBS seams; interior neoprene taping
7	Supretex reinforced knee panels	08	Water drainage holes; white branding

SURGE 3/2

Core Performance Wetsuit | MEN

Freedom to Follow the Waves.

The ocean never stands still. Neither does the desire to explore it. The Black Fire SURGE 3/2 is created for surfers who value flexibility, simplicity and a natural connection to the water. Using the same streamlined exterior design as RIFT 4/3, SURGE features lighter 3/2 mm CR neoprene construction with flexible fabric lining instead of thermal fleece. Super-stretch panels support natural paddling and movement, while a chest-entry system, GBS seams and reinforced knee panels complete its practical construction. A refined Obsidian Black exterior with discreet white branding delivers the unmistakable Black Fire identity.

Less weight. More movement. Endless possibilities.

TECHNICAL FEATURES

01	3/2 mm CR neoprene	02	Same exterior design as RIFT 4/3
03	Flexible nylon/stretch interior; no fleece	04	Super-stretch shoulders, underarms, sleeves and legs
05	Chest zip: #10 YKK plastic slider	06	GBS seams; crotch-area neoprene taping
07	Supretex reinforced knee panels	08	Water drainage holes; white branding

SURGE 3/2

Core Performance Wetsuit | WOMEN

Move with the Ocean.

From quiet mornings to unforgettable sessions, freedom begins the moment you enter the water. The Black Fire Women's SURGE 3/2 combines lightweight neoprene construction with a flexible, streamlined design, created for comfortable movement during warmer and transitional surf conditions. Its 3/2 mm CR neoprene construction, stretch interior and anatomical women's fit provide an alternative to heavier thermally lined suits. Built with the same exterior design as the Women's RIFT 4/3, SURGE features a secure chest-entry system, reinforced knee panels and subtle white Black Fire branding.

Find your rhythm. Follow your own path.

TECHNICAL FEATURES

01	3/2 mm CR neoprene	02	Women's anatomical fit
03	Same exterior design as RIFT 4/3	04	Flexible nylon/stretch lining; no thermal fleece
05	Super-stretch shoulders and sleeves	06	Chest zip: #10 YKK plastic slider
07	GBS seams; crotch-area neoprene taping	08	Supretex reinforced knees; drainage holes

CINDER 2

Long-Sleeve Neoprene Surf Top | MEN

Freedom Beyond the Wetsuit.

Some days, all you need is the warmth of the sun, the movement of the ocean and the freedom to explore. The Black Fire CINDER 2 is designed for warmer-water surfing, combining lightweight 2 mm neoprene with flexible stretch fabrics in a clean, long-sleeve silhouette. Its fitted construction provides light insulation and comfortable coverage while allowing natural movement through paddling, swimming and water activities. Finished in Obsidian Black with discreet white Black Fire branding, CINDER brings the simplicity of our volcanic identity to warm-water performance.

Minimal protection. Maximum connection.

TECHNICAL FEATURES

01	2 mm CR neoprene	02	Flatlock seam construction
03	Super-stretch exterior fabric	04	Lightweight design for warmer conditions
05	Flexible interior stretch fabric	06	Obsidian Black
07	Long-sleeve athletic cut	08	White Black Fire branding

SHORE 2

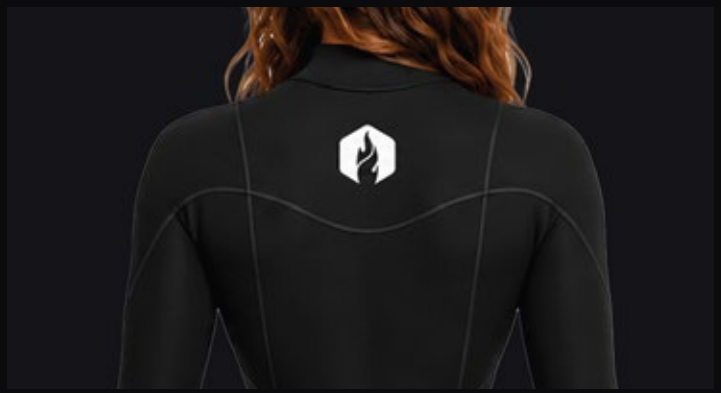

Long-Sleeve Neoprene Spring Suit | WOMEN

Made for the Moments That Matter.

The first light on the ocean. Warm sand beneath your feet. The freedom of discovering a coastline you have never seen before. The Black Fire SHORE 2 captures the simplicity of warm-water exploration. Designed with a flattering women's silhouette, this 2 mm long-sleeve spring suit combines lightweight CR neoprene, flexible stretch fabrics and a practical chest-entry construction. The short-leg design allows natural movement while providing light insulation and additional coverage for surfing, swimming and coastal adventures. Its refined Obsidian Black exterior and discreet white Black Fire branding ncreate a timeless look inspired by volcanic coastlines.

Explore freely. Feel the ocean.

TECHNICAL FEATURES

01	2 mm CR neoprene	02	Flexible interior stretch fabric
03	Women's fitted spring-suit design	04	Chest entry: #10 YKK plastic-slider zip
05	Long sleeves; short-leg construction	06	Flatlock seam construction
07	Super-stretch exterior fabric	08	Obsidian Black; white Black Fire branding

SURF & BEACH BIKINIS

MADE TO MOVE WITH THE OCEAN

Three silhouettes, one volcanic origin - from active surf to coastal escape.

ORIGIN

MINIMALIST PERFORMANCE SURF BIKINI

01 SURF / CV2610-03a

Inspired by the freedom of the ocean, ORIGIN combines timeless athletic styling with comfortable movement. A scoop-neck top, supportive underbust band, slim shoulder straps and streamlined bikini bottom create a clean, functional silhouette.

COLOUR | Obsidian Black
USE | Surfing, swimming and active beachwear.

BASALT

PREMIUM TECHNICAL SURF BIKINI

02 SURF / CV2610-03b

Inspired by volcanic rock formations, BASALT brings together performance-focused construction and distinctive Black Fire styling. Adjustable shoulder straps, a supportive underbust band, reinforced stitching and a tonal topographic pattern are finished with Lava Orange details.

COLOUR | Obsidian Black / Lava Orange
USE | Surfing, paddling and active water sports.

EMBER

PREMIUM BEACH BIKINI

03 BEACH / CV2610-03c

Inspired by the warmth of volcanic coastlines, EMBER combines feminine elegance with relaxed simplicity. An adjustable triangle halter-neck top, tie-back closure and side-tie bottoms are complemented by a subtle topographic pattern and Lava Orange accents.

COLOUR | Obsidian Black / Lava Orange
USE | Swimming, beachwear and coastal lifestyle.

FABRIC DIRECTION - UNDER DEVELOPMENT

Target: 78-80% recycled nylon / 20-22% elastane. Fishing-net origin and final fabric specs pending verification.

BOARD SHORTS

FROM THE COAST TO THE NEXT WAVE

Technical utility meets tonal topographic styling and Lava Orange detail.

ONYX

WOMEN'S PERFORMANCE BOARD SHORTS

BF-WBS-001

Designed for movement, ONYX combines an athletic fit with practical surf function. A fixed drawcord waistband, short-length cut, quick-dry mesh brief liner and two zipped pockets are finished with a tonal volcanic print, Lava Orange details and discreet Black Fire branding.

COLOUR | Obsidian Black with Lava Orange accents
USE | Surfing, swimming, paddling and active beachwear
FABRIC | 4-way stretch polyester / elastane; Ocean Reborn alternative under study

BASALT

MEN'S TECHNICAL BOARD SHORTS

CV2610-03d

Inspired by volcanic terrain, BASALT is designed for movement in and out of the water. A secure drawcord waistband, angled zip-pocket detailing and tonal topographic texture combine with Lava Orange accents, a signature flame emblem and subtle Black Fire branding.

COLOUR | Obsidian Black with Lava Orange accents
USE | Surfing, swimming, beachwear and warm-water travel
FABRIC | Stretch woven board-short fabric; recycled-nylon option under review

Material options and performance properties are subject to factory sample approval.

EYEWEAR & SNOW

FROM VOLCANIC COASTS TO ALPINE LINES

Shield sunglasses and snow goggle concepts inspired by energy, exploration and changing light.

BASALT / 927

OBSIDIAN BLACK / COPPER-RED MIRROR

Strength begins at the source

Born where fire becomes stone, BASALT reflects the strength of volcanic landscapes and the freedom to explore beyond familiar horizons. Its sculpted Obsidian Black shield-frame design meets a copper-red mirror finish, with discreet Black Fire detailing for an unmistakable identity. Created for the open road, coastal adventures and active days outside, it brings confident form and understated character to every journey.

DESIGN DETAILS

01 **DESIGN**
927 shield-style frame

02 **DETAILS**
Signature emblem and subtle temple branding

03 **COLOUR**
Obsidian Black

04 **STATUS**
Fit, UV category and lens performance to be confirmed

05 **LENS LOOK**
Copper-red mirror

BASALT / 927

NATURAL ASH / COPPER ROSE

Strength, softly expressed.

A softer expression of volcanic strength. BASALT in Natural Ash takes the angular character of our 927 design and pairs it with a warm copper-rose mirror finish. Inspired by ash, stone and the last light over a black-sand coast, this colourway balances technical style with quiet sophistication. The smaller-fit women's concept keeps the distinctive Black Fire silhouette while exploring a more refined everyday fit.

DESIGN DETAILS

01 **DESIGN**
927 shield-style frame

02 **DETAILS**
Black flame emblem at outer temple

03 **COLOUR**
Natural Ash

04 **STATUS**
Smaller fit is a concept; dimensions and lenses need sampling

05 **LENS LOOK**
Copper Rose mirror

FLOW / 823

OBSIDIAN BLACK / COPPER-RED MIRROR

Follow the energy.

Lava never stands still. It follows the terrain, finds a path and reshapes what lies ahead. The Black Fire FLOW 823 is inspired by that same relentless movement. An angular wraparound silhouette, expressive copper-red mirror finish and Lava Orange accents give it dynamic character, while a dark topographic texture and signature flame emblem connect it to our volcanic origins. Built around the spirit of motion, it belongs wherever the next trail or horizon leads.

DESIGN DETAILS

01 **DESIGN**
823 angular shield silhouette

02 **DETAILS**
Lava accents; tonal topographic temples

03 **COLOUR**
Obsidian Black

04 **STATUS**
Final fit, optical properties and lens certification pending

05 **LENS LOOK**
Copper-red mirror

FLOW / 823

NATURAL ASH / COPPER ROSE

Move with your nature.

Movement has its own rhythm. Inspired by lava flowing towards the sea, FLOW 823 in Natural Ash brings a lighter, more understated expression to our bold shield design. Copper Rose mirror lenses reflect the warm colours of volcanic coastlines, while angular temples, black flame branding and subtle contour details retain the Black Fire signature. This women's colourway concept is intended for active days, open landscapes and the freedom to move your own way.

DESIGN DETAILS

01 **DESIGN**
823 angular shield silhouette

02 **DETAILS**
Temple vents, flame emblem and subtle topographic lines

03 **COLOUR**
Natural Ash

04 **STATUS**
Women's sizing and lens specifications subject to sampling

05 **LENS LOOK**
Copper Rose mirror

SUMMIT / H075

FIXED-STRAP MODEL / TWO LENS COLOUR OPTIONS

Find your line beyond the familiar.

The mountain is never the same twice. Light changes, weather shifts and every descent reveals a new path. SUMMIT H075 channels the Black Fire spirit of exploration into a clean, technical snow-goggle design. A dark frame, signature topographic strap and copper-red or blue mirror finish give it a strong visual identity. The fixed-strap concept combines a secure adjustable fit with a proposed three-layer comfort-foam interface for long days in the mountains.

DESIGN DETAILS

01 **MODEL**
H075 fixed-strap design

02 **CONSTRUCTION**
50 mm strap, silicone grip and three-layer face foam targeted

03 **FRAME**
Obsidian Black with Lava accent

04 **STATUS**
VLT, coatings, foam and fit require sample verification

05 **LENS OPTIONS**
Copper-red mirror; blue mirror concept

CALDERA / MAG

TWO-LENS CHANGE SYSTEM / WORKING NAME

Adapt to the mountain.

Volcanic landscapes are shaped by constant change. CALDERA MAG carries that idea into the mountains with a magnetic two-lens goggle concept developed for changing light. Its Obsidian Black frame, Lava Orange edge and topographic strap give it a precise Black Fire identity. A copper-red sun-lens direction is paired with a blue lower-light lens concept, while the proposed three-layer foam aims to provide comfortable face contact. A mechanical safety-retention lock is required before production approval.

DESIGN DETAILS

01 **MODEL**
Magnetic quick-change goggle concept

02 **CONSTRUCTION**
Three-layer foam; mechanical safety lock required

03 **FRAME**
Obsidian Black / Lava Orange detailing

04 **STATUS**
Lens VLT, retention, anti-fog and impact tests pending

05 **LENS OPTIONS**
Copper-red sun and blue low-light

APPAREL & ACCESSORIES

MADE TO EXPLORE BEYOND THE WATER

Everyday pieces and changing essentials shaped by the Black Fire identity.

CANOPY TEE

MEN'S & WOMEN'S PREMIUM LIFESTYLE T-SHIRT

Inspired by Nature. Made to Explore.

From remote coastlines to the forests and mountains beyond, exploration is part of who we are. The Black Fire CANOPY Tee reflects our connection to the natural world through refined landscape artwork, understated volcanic detailing and a soft, flexible fabric. Created for relaxed everyday comfort, from the beach to the next journey.

PRODUCT DETAILS

01 65% bamboo fibre / 28% cotton / 7% spandex

02 Crew neckline

03 185 GSM proposed fabric

04 Signature chest flame and landscape back artwork

05 Men's and women's relaxed fits

06 Obsidian Graphite and Natural Ash (cream)

Supplier to identify bamboo fibre type and confirm fabric, sizing and shrinkage. Sample stage.

EMBER TEE

MEN'S & WOMEN'S PREMIUM COTTON T-SHIRT

Carry the Fire Within.

Every coastline carries the story of the forces that shaped it. The Black Fire EMBER Tee brings that energy to life with striking Lava Orange volcanic artwork against a clean, minimal silhouette. Its substantial cotton construction and relaxed cut are designed for a premium everyday feel, from the ocean to the city and everywhere between.

PRODUCT DETAILS

01	100% organic cotton proposed for sampling	02	Ribbed crew neckline
03	220 GSM target fabric weight	04	Signature chest emblem and large flame artwork
05	Men's and women's relaxed / boxy fits	06	Obsidian Black and Natural Ash (cream)

Organic fibre content and final 220 GSM fabric subject to factory verification. Sample stage.

CRATER CAP

PREMIUM SIX-PANEL LIFESTYLE CAP

Grounded in Volcanic Strength.

Inspired by the contours of volcanic landscapes, the Black Fire CRATER Cap pairs timeless construction with subtle texture. Tonal topographic detailing, a white hexagon-flame emblem and a Lava Orange under-visor give it a distinctive identity without unnecessary noise. A versatile companion for the coastline, the road and every day outdoors.

PRODUCT DETAILS

01 Six-panel structured mid-profile design

02 Curved visor / Lava Orange under-visor

03 Organic cotton twill / 280 GSM development target

04 Adjustable metal-slide closure

05 Tonal volcanic detailing and white embroidered emblem

06 Soft internal sweatband / Obsidian Black

Fabric, embroidery, fit and closing hardware subject to sample approval.

CINDER CAP

PREMIUM TRUCKER CAP

Follow the Energy.

The Black Fire CINDER Cap captures the energy that rises from the earth. A structured cotton-twill front meets breathable rear mesh in a confident, pared-back trucker silhouette. Finished with a Lava Orange flame emblem and refined tonal detailing, CINDER is made for warm days, coastal travel and the next horizon.

PRODUCT DETAILS

01 Six-panel structured trucker profile

02 Curved visor with tonal stitch detail

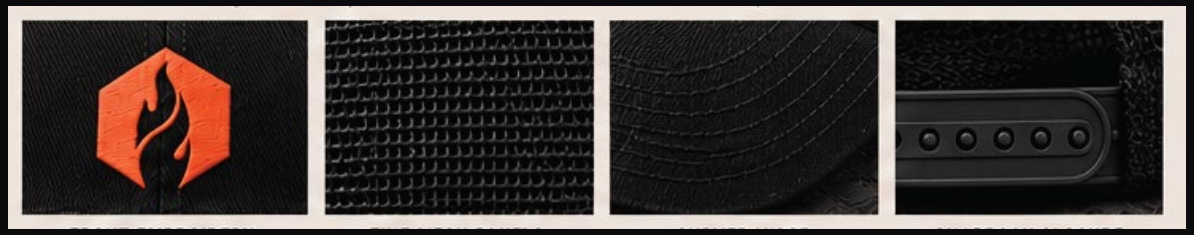

03 Cotton-twill front / fine mesh rear panels

04 Adjustable snapback closure

05 Lava Orange hexagon-flame front embroidery

06 Graphite under-visor / soft sweatband

Materials, mesh construction, sizing and fit to be confirmed during sampling.

TIDELINE PONCHO

PREMIUM SURF CHANGING & TOWEL PONCHO

Comfort Beyond the Waves.

The best surf sessions do not end when you step out of the water. TIDELINE brings warmth, coverage and practical changing room to those moments before and after the waves. Oversized comfort, an absorbent terry construction and a generously lined hood meet discreet pocket-access openings - finished in Obsidian Black with our signature Lava Orange details.

PRODUCT DETAILS

01 Proposed 70% cotton / 30% lyocell terry

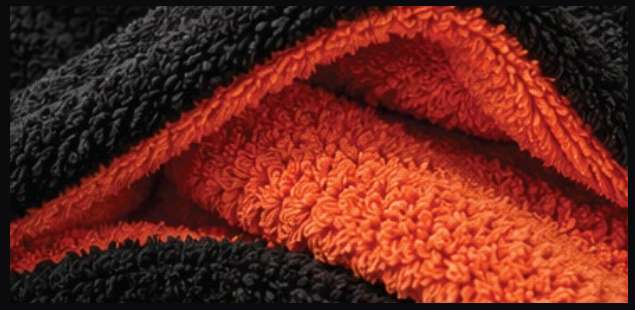

02 Double-layer hood with Lava Orange interior

03 400 GSM target weight / absorbent finish

04 Kangaroo pocket and concealed changing-access openings

05 Oversized unisex fit - S/M and L/XL

06 Side slits / tonal back emblem / white chest logo

Construction and size targets are provisional; refer to approved BF-PON-01 technical pack. Factory sample approval required.

SURFBOARDS

A BETTER BOARD BEGINS WITHIN.

Engineers who surf. Surfers who question what comes next.

PATENT-PENDING MODULAR CORE TECHNOLOGY

Developed in Switzerland, our construction combines a 3D-printed modular core with advanced composites. Its hexagonal structure serves a precise purpose: to tune the way the board flexes and responds beneath your feet.

LESS WEIGHT. MORE POSSIBILITY

Engineered towards lighter boards with strength and impact resistance in mind.

FLEX WITH PURPOSE.

A modular core designed to fine-tune response and ride comfort.

BETTER MATERIALS . A LONGER VIEW.

Bio-based materials. Non-toxic production. Durability at the heart.

EMBERSTONE

A forgiving and fun hybrid shortboard.

ENGINEERED FOR THE FEELING.

Surf without worries and try new manoeuvres.

Double concave, quad channels and a winged diamond tail help you recover speed and give you confidence for your next turn.

SIZES

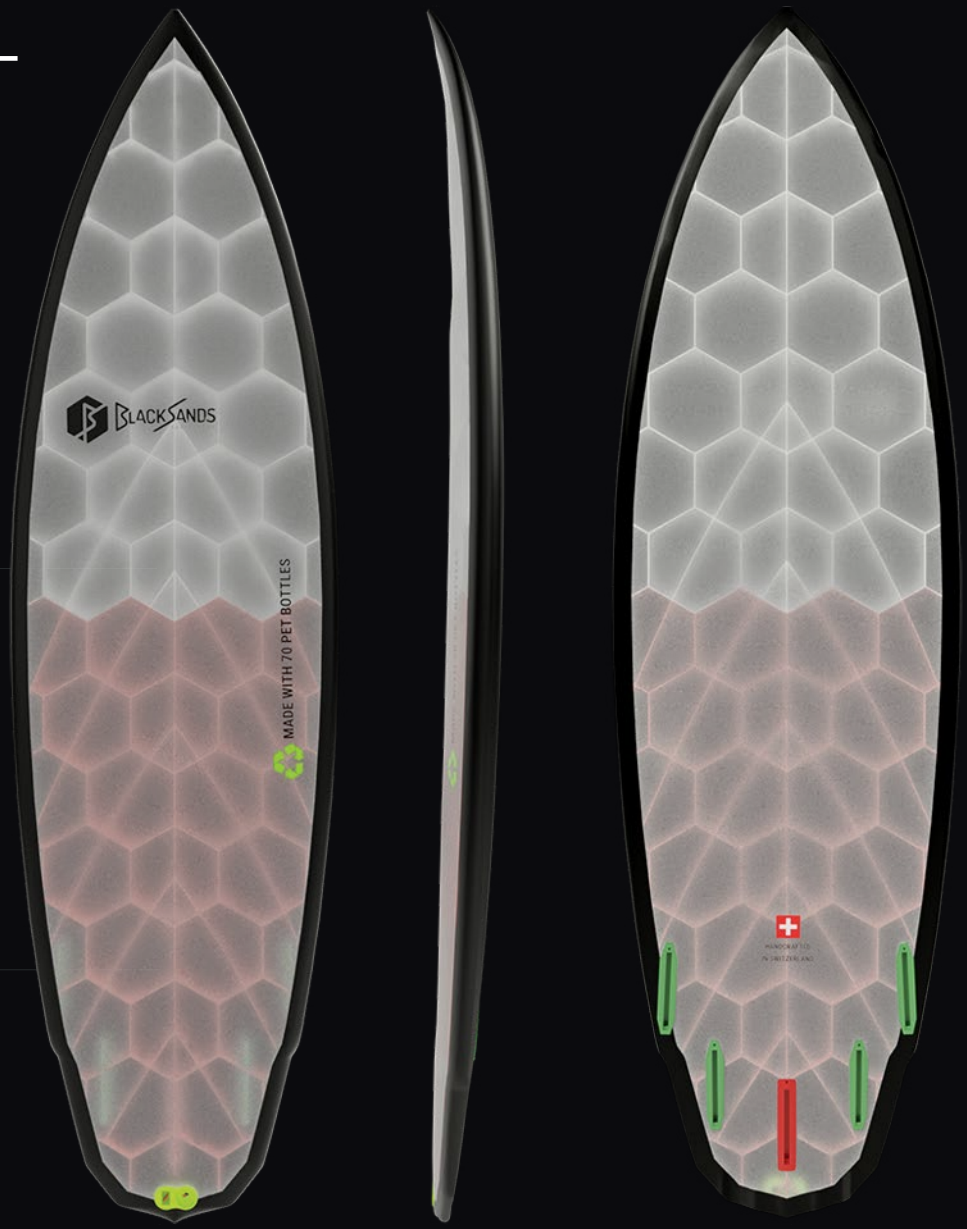

5'8 | 19 1/16" - 2 1/2" - 31.4 L

5'10 | 19 9/16" - 2 5/8" - 34.1 L

6'0 | 20 3/16" | 2 3/4" | 37.7 L

COLOURS

GREEN RED YELLOW

BIO-BASED MATERIALS | NON-TOXIC PRODUCTION | TUNED FLEX

OBSIDIAN

HANDCRAFTED FOR PERFORMANCE

Your first high-performance shortboard.

Ready to push the limits and start radical manoeuvres?

Get in the pilot's seat. The Obsidian has you covered. A single concave with a low-entry rocker and a squash tail gives you precision on hollow waves, while the board's responsive design makes it ideal for experimenting with extreme turns.

SIZES

5'10	18 3/4''	2 1/16''	27.4 L
6'0	19 1/4''	2 3/8''	30.7 L

COLOURS

GREEN RED YELLOW

ONYX

THE ONE-BOARD QUIVER

Easy to paddle. Don't miss a wave.

Does it all. From small flat days through to intermediate hollow waves. Ideal for shortboard beginners, or for anyone who wants a single board to handle a variety of conditions. Single to double concave generates speed when you need it, and the swallow tail with a Vee end bottom keeps turns easy in bigger surf.

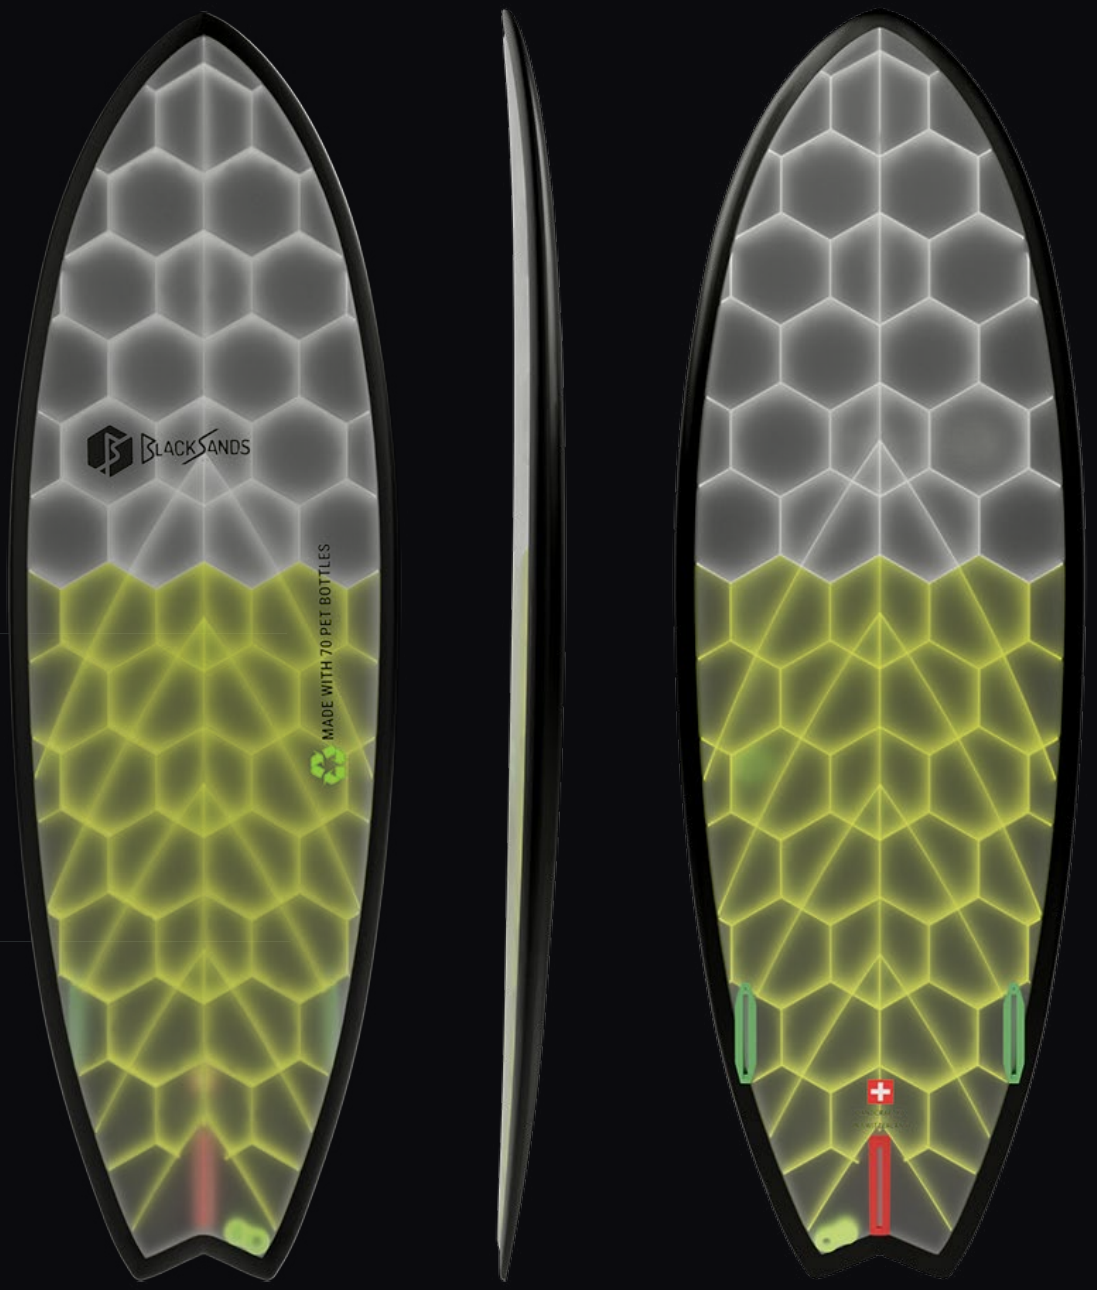

SIZES

5'8 | 21 3/8" - 2 3/8" - 33.8 L

5'10 | 22 3/16" - 2 1/2" - 37.7 L
